

# CAMS Reporting Using Web Intelligence

# CAMS Universe

---

- Data is extracted nightly from CAMS and is available through the Enterprise Reporting Web Intelligence tool
- Contains all CAMS asset records and their depreciation history
  - Includes disposed assets
- Currently only self-service reporting is available

# *Benefits of the CAMS Universe*

---

- Quick and Easy access to CAMS data
- Create custom reports
- Allows you to select just the data you want
- View historical monthly depreciation, total cost, and salvage value for an asset
- See complete Asset descriptions on reports
- Reduced mainframe costs

# *Benefits of CAMS Universe*

---

- Set reports to run automatically each month
- Reports can be run in PDF, MS Excel, and other formats
- Reports can be distributed by email.

# *Training Opportunities*

---

- Classes can be scheduled through the DES Learning Management System (LMS)
  - DES – Enterprise Reporting Introduction to Web Intelligence.
  - DES – Enterprise Reporting Web Intelligence for Advanced Users
    - All Enterprise Reporting trainings are focused on the functionality of the tools, but are conducted using AFRS data.

*Thank you*
