Vendor Day Meeting

The State of Washington's Office of Financial Management (OFM) will hold a market research meeting with potential vendors as it prepares to publish a competitive process to select a Strategic Partner (SP) for the One Washington Program.

One Washington is a comprehensive business transformation program to modernize and improve aging administrative systems and related business processes that are common across state government. We are focused on driving innovation and improvement in four key business processes: core financials, procurement, budgeting, and human resources. Strategic Partner selection involves a nontraditional approach to choose a strategic partner and implementer to help with the planning, phasing and structuring of our implementation strategies. This is done so we can achieve the strategies in incremental, fundable phases.
