

## Washington State Auditor Brian Sonntag

### INDEPENDENT AUDITOR'S REPORT ON FINANCIAL STATEMENTS

November 15, 2012

The Honorable Christine Gregoire  
Governor, State of Washington

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate discretely presented component units and remaining fund information of the State of Washington, as of and for the year ended June 30, 2012, which collectively comprise the State's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the State's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Department of Retirement Systems, Washington's Lottery, Local Government Investment Pool, University of Washington, and the funds managed by the State Investment Board. Those financial statements represent part or all of the total assets, net assets, and revenues or additions of the governmental activities, the business-type activities, each major fund, and the aggregate discretely presented component units and remaining fund information as follows:

<u>Opinion Unit</u>	<u>Percent of Total Assets</u>	<u>Percent of Net Assets</u>	<u>Percent of Total Revenues/ Additions</u>
Governmental Activities	12.6%	23.0%	8.2%
Business-Type Activities	76.6%	100%	30.9%
Higher Education Special Revenue Fund	50.7%	52.9%	49.0%
Higher Education Endowment Fund	96.0%	96.3%	100.0%
Higher Education Student Services Fund	71.7%	72.0%	79.8%
Workers' Compensation Fund	96.3%	100%	32.8%
Guaranteed Education Tuition Program Fund	82.4%	100%	6.7%
Aggregate Discretely Presented Component Units and Remaining Fund Information	90.7%	93.1%	61.8%

Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts included for the above mentioned entities and funds are based solely on the reports of other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The financial statements of the Department of Retirement Systems, Washington's Lottery, Local Government Investment Pool, University of Washington, and the funds managed by the State Investment Board were not audited in accordance with *Government Auditing Standards*. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall

financial statement presentation. We believe that our audit and the reports of other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate discretely presented component units and remaining fund information of the State of Washington, as of June 30, 2012, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As explained in Note 1.D.1, the financial statements include pension trust fund investments valued at \$25.5 billion which comprise 28.7% of total assets and 31.0% of net assets of the aggregate discretely presented component units and remaining fund information. The fair values of these investments have been estimated by management in the absence of readily determinable fair values. Management's estimates are based on information provided by the fund managers or, in the case of investments in partnerships, the general partners.

As described in Note 2, during the year ended June 30, 2012, the State implemented Governmental Accounting Standards Board *Statement No. 64 - Derivative Instruments: Application of Hedge Accounting Termination Provisions—*an amendment of GASB *Statement No. 53*.

In accordance with *Government Auditing Standards*, we have also issued our report on our consideration of the State's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison schedules and information, pension plan information, other postemployment benefits information, and infrastructure assets reported using the modified approach be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during the audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

**BRIAN SONNTAG, CGFM**  
STATE AUDITOR
